Professional Summary

Computer Science undergraduate at Amity University Mumbai with hands-on experience in full-stack web development through internships and real-world projects. Previously worked as a Full Stack Developer Intern at State Bank of India, developing enterprise applications using ASP.NET Core MVC, C#, SQL Server, and Entity Framework Core. Also experienced in Flutter-based mobile application development, REST API integration, backend development, and building scalable applications.

Education

Amity University Mumbai **2023 – 2027**
Bachelor of Technology in Computer Science & Engineering *CGPA: 8.59*

Ryan International School, Navi Mumbai **2022 – 2023**
Senior Secondary (CBSE) *72%*

Experience

State Bank of India (SBI) **June 2026 – August 2026**
Full Stack Developer Intern

- Developed an enterprise-level **Title Deed Management System** using ASP.NET Core MVC, C#, SQL Server, Entity Framework Core, Razor Views, Bootstrap, JavaScript, and AJAX.
- Implemented secure authentication, CRUD operations, database relationships, role-based modules, server-side validation, and document management while following MVC architecture and clean coding practices.

Ibtidaa Tech **July 2025 – August 2025**
Frontend Developer Intern

- Developed a responsive personal portfolio website using React to showcase education, technical skills, projects, achievements, and professional information.
- Implemented reusable React components and interactive navigation for sections including Home, Education, Skills, Projects, Achievements, and Contact.

Ibtidaa Tech **July 2025 – September 2025**
Graphic & Media Design Intern

- Designed the company's logo, business cards, and promotional graphics while maintaining consistent brand identity across digital assets.

StaxTech **May 2025 – June 2025**
Software Development Intern

- Developed a responsive Weather Website using HTML, CSS, and JavaScript to display real-time weather information based on user search.
- Designed an interactive and user-friendly interface with dynamic weather updates and responsive layouts.

Projects

Drive - Google Drive Clone | *Node.js, Express.js, MongoDB, Firebase, JWT, EJS, Tailwind CSS*

∗ Developed a full-stack cloud storage application inspired by Google Drive using Node.js, Express.js, MongoDB, EJS, and Tailwind CSS.
∗ Implemented secure Email/Password and Google Sign-In authentication using JWT, bcrypt, and Firebase Authentication.
∗ Built file upload, dashboard, recent, starred, and delete functionality using Multer and MongoDB, with a responsive interface deployed on Render.

CredV – Credit Card Management App | *Flutter, Dart, FastAPI, SQLite, Firebase Authentication*

∗ Developed a full-stack credit card management app for tracking cards, transactions, spending insights, rewards, and credit information.
∗ Implemented email/password and Google Sign-In authentication using Firebase, supporting personalized multi-user experiences.
∗ Built RESTful APIs with FastAPI and SQLite for authentication, card and transaction management, profile updates, and password reset; deployed backend on Render.

ResumeIQ – AI Resume Analyzer | *React.js, FastAPI, Python, TF-IDF, Naive Bayes*

* Developed an AI-powered resume analysis web application with a React frontend and FastAPI backend.
* Implemented resume upload and text extraction to process resume content for analysis.
* Applied TF-IDF feature extraction and a Naive Bayes model to analyze and classify extracted resume text.
* Deployed the application on Render for online access.

Technical Skills

Languages: Dart, JavaScript, Python, C#, SQL, C++
Mobile Development: Flutter, Android Development, Responsive UI Design
Frontend: React, HTML5, CSS3, Tailwind CSS
Backend & APIs: FastAPI, Node.js, Express.js, REST APIs, API Integration
Databases & Cloud: SQLite, Firebase Firestore, MongoDB, SQL Server, PostgreSQL, Render
Developer Tools: Git, GitHub, Android Studio, VS Code, Postman
Core Concepts: OOP, State Management, Asynchronous Programming, Authentication, Data Structures & Algorithms

Leadership

Google Developer Groups (GDG) On Campus **2024 – 2025**
Technical Lead *Amity University Mumbai*

* Coordinated technical events by managing documentation, presentations, and event logistics.
* Created presentation materials, captured event photographs, and maintained documentation for workshops and community activities.
* Collaborated with the organizing team to support the execution and promotion of developer-focused events on campus.

Achievements

- Technical Lead, Google Developer Groups (GDG) On Campus, Amity University Mumbai (2024–2025).
- Participated in the HackCelestial 2.0 Hackathon.
- Participated in the Vibe2Ship Hackathon, organized by Coding Ninjas.
- Solved 100+ Data Structures and Algorithms.

Certifications

- Full Stack Web Development Bootcamp – Udemy
- The Complete Flutter Development Bootcamp with Dart – Udemy
- Backend Development Bootcamp 2026: Python, Flask, REST APIs, Docker & SQL – Udemy
- Full Stack Generative and Agentic AI with Python — Udemy
- Web Development Training – Internshala
- Internship & Job Preparation Training – Internshala
- Power BI Workshop
- Cybersecurity Certification
